To whom it may concern

PEER GROUP PLC

24th July 2007

Dear Sir/Madam

Business Gas UK Ltd

We at Peer Group are large consumers of electricity and gas and we are always willing to look at ways of cutting costs and saving money.

With the help of Business Gas UK Ltd and our appointed consultant Paul Rafis, we looked at ways of identifying anomalies, and to put in place a preparation of accruals and actual spends, which would identify wastage and would enable us to have an Energy and Environmental Policy.

We have had detailed site surveys carried out on properties within our portfolio and have found anomalies which we had not foreseen.

Business Gas UK Ltd negotiated new contract rates on our electricity and gas which helped us save over £100,000 this year alone, we are working with them on an ongoing basis to improve and reduce our energy costs.

Based on our experience with Business Gas UK Ltd we believe that any company who either own or occupy property would find their experience and expertise in the fields of energy procurement and energy management an asset. The service that we receive is professional and friendly and we have no hesitation in confirming that we are a very satisfied client.

Yours faithfully

Mark R Phillips
Property Manager
